JOHN W. SWINDELLS,
VIRGINIA HUTCHEN.

TEXAS ALMANAC FOR 1869.
And Emigrants' Guide to Texas, for sale
at THE HERALD OFFICE.

ALSO

The Texas Almanac for 1861 and for
1865, both of which contain a great deal of
valuable information in regard to Texas,
Will be sold at reduced prices.

TEXAS WHIPPING-POST has been
erected somewhere in Delaware. The back
has long been considered a good medium
for the transmission of sound impressions
and should be generally endorsed before
the idea becomes obsolete.

THE Austin Gazette says that Judge
Hancock is not anxious to run for any
office whatever, being engaged in his pro-
fessional duties. The people, however,
will be pleased to see him "run" into the
United States Senate, for which high office
he is so eminently well qualified.

TEXAS has been made a
money order office.

From this time hence, during the
summer months, there will be but three
mail steamers from Galveston, via Ber-
wick's Bay, to New Orleans, leaving the
former city on Sundays, Tuesdays and
Fridays at 12 m.

Fielding L. Kirby, of Johnson
county, Texas, has secured a patent for a
combined bow, arrow and cotton chopper,
which it is spoken of as a most valuable
invention.

To CURE BLIND STAGGERS.—The follow-
ing cure for the blind staggers is said to
be infallible:

Measure a stick from the nostril to the
inner corner of the eye, so as not to have
it too long, sharpen well and run it up
nostril, twisting it around once or twice.
It will give instant relief. This remedy is
so simple—the material being always on
hand—that we consider it invaluable to
farmers and horsemen.
